

Budgeting — Word Problems

Grade 3

Name: _____

Read each problem and write the answer on the line.

Add up what is spent, then subtract from the starting amount to find what is left.

- (1) Mia has \$30 to spend. She buys art supplies for \$12 and a new book for \$9.
How much money does Mia have left?
- _____
- (2) Leo earned \$25 for helping his neighbor. He decided to save \$10 and spend \$7
on a toy. How much money does Leo have remaining?
- _____
- (3) Chloe has \$40. She wants to buy a gift for \$15 and snacks for \$8. How much
money will Chloe have after her purchases?
- _____
- (4) David received \$50 for his birthday. He puts \$20 into his savings and spends
\$14 on a movie ticket. How much money is left for other things?
- _____
- (5) Sarah has \$35. She spends \$10 on lunch and \$6 on a new pencil case. How
much money does Sarah have now?
- _____

(6) Ethan has \$28. He buys a comic book for \$9 and saves \$11. How much money did Ethan spend on other items?

(7) Olivia earned \$45 from chores. She spent \$18 on a new game and \$7 on ice cream. How much money does Olivia still have?

(8) Noah has \$32. He uses \$13 to buy a new marker set and \$5 for a small treat. What is Noah's remaining money?
