

Saving & Spending — Word Problems

Grade 4

Name: _____

Read each problem and write the answer on the line.

- (1) Olivia wants to buy a new book that costs \$18. She earns \$3 each week for helping with chores. How many weeks will it take Olivia to save enough money for the book?
- _____
- (2) Noah saved \$45 from his allowance. He spent \$12 on a new toy and \$8 on art supplies. How much money does Noah have left?
- _____
- (3) Sophia is saving for a board game that costs \$32. She has already saved \$14. If she saves \$2 each day, how many more days will it take her to reach her goal?
- _____
- (4) Ethan received \$50 for his birthday. He decided to save half of it and spend the rest. How much money did Ethan save?
- _____
- (5) Isabella earns \$7 per week for walking her neighbor's dog. She wants to buy a puzzle that costs \$28. How many weeks must Isabella work to buy the puzzle?
- _____

(6) Liam had \$60. He bought a gift for his mom for \$25 and a new shirt for \$18. How much money does Liam have remaining?

(7) Ava saved \$5 each week for 7 weeks. She then bought a new backpack for \$20. How much money does Ava have left after buying the backpack?

(8) Mason wants to buy a remote-control car that costs \$48. He saves \$6 every week. How many weeks will it take him to save enough money?

(9) Chloe has \$36. She wants to buy 3 small craft kits that each cost \$9. Does she have enough money? If so, how much will she have left?

(10) Daniel saved \$15 from his allowance. His grandmother gave him \$20 more. He wants to buy a video game that costs \$40. How much more money does Daniel need?
