

Ordinal Numbers to 10th

Grade 1

Name: _____

Answer questions about position using ordinal numbers (1st, 2nd, 3rd...).

Ordinal numbers tell us the position or order of something — first (1st), second (2nd), third (3rd), and so on.

- (1) Write the ordinal word for 10. _____
- (2) Jake is 4th in line. How many kids are ahead of Jake? _____
- (3) Write the ordinal number for "first". _____
- (4) Write the ordinal number for "sixth". _____
- (5) Write the ordinal number for "eighth". _____
- (6) Liam is 3rd in line. How many racers are ahead of Liam?

- (7) Write the ordinal number for "second". _____
- (8) Write the ordinal word for 9. _____
