

Ordinal Numbers to 10th

Kindergarten

Name: _____

Answer questions about position using ordinal numbers (1st, 2nd, 3rd...).

Ordinal numbers tell us the position or order of something — first (1st), second (2nd), third (3rd), and so on.

(1) Write the ordinal word for 5. _____

(2) Write the ordinal number for "third". _____

(3) Zoe is 2nd in line. How many runners are ahead of Zoe?

(4) Jake is 6th in line. How many kids are ahead of Jake? _____

(5) Write the ordinal number for "eighth". _____

(6) Liam is 10th in line. How many racers are ahead of Liam?

(7) Ethan is 4th in line. How many children are ahead of Ethan?

(8) Write the ordinal number for "first". _____

(9) Liam is 7th in line. What position is just before Liam? _____

(10) Write the ordinal word for 9. _____
